

Schedule

Precious Beginnings Preschool offers three different age group classes. Each class has a specific educational plan that they follow. This was created so that each class would be a smooth transition one from another and the teachers knew exactly what they needed to teach and when. This educational plan also keeps us on track with both ACSI (Association of Christian Schools International) Standards and PA State Standards.

Threes - Monday and Wednesday. 9:00-11:30
Should be three by September 1, 2017 and toilet trained.

In the three year old class the children will be introduced to their letters and numbers using various methods, to make sure that each child can learn the way that God has designed them to learn. The children are also taught various Bible lessons and memorize Bible verses.

Fours - Monday through Thursday. 9:00 - 11:30
Should be four by November 1, 2017

In the four year old class the children will continue their learning of the alphabet and numbers, but will also learn handwriting. The children will continue to have Bible lessons and Bible memory verses.

Fives - Monday through Friday. 9:00 - 11:30
Should be 5 by November 1, 2017

The five year olds meet Monday through Friday. In this class the children will focus more in depth on their letters, sounds, numbers, and many other activities. They will do Bible lessons and memorize many Bible verses. Friday is used as an enrichment day where the kids have the opportunity to explore concepts in more

depth with more hands on activities.

Precious Beginnings offers your child multiple ways to learn, by utilizing centers, STEM activities, outdoor activities, and classroom projects. Each class does a variety of art projects that we display at the art show. For art projects they use a variety of mediums, from model magic sculptures to 3D rainbows to clown and dinosaurs.

Precious Beginnings is blessed to have an outdoor, fenced in, play area that has slides and a tunnel. We also have an outdoor science area, where the children can explore a variety of science topics. There is also a picnic area that is utilized for an outdoor snack time.
